VINEGAR MANUFACTURING FACILITIES

The Australian Vinegar Corporate Head office, Innovation Centre and manufacturing facility is located in Stanthorpe, Queensland. Our state-of-the-art manufacturing facility, recognised as one of the most advanced globally, not only ensures a consistent supply of premium vinegar but also embodies our commitment to innovation and excellence. This means your business can rely on us for quality products that are produced sustainably, ensuring we meet your needs today and in the future.

Australian Vinegar is the largest specialised vinegar maker in Australia.

Annual production capacity:

- 2.6 million litres @ 10% acidity
- 6.5 million litres @ 4% acidity

Tank farm storage capacity:

- Over 1 million litres.

Bottling line:

- Up to 4,800 units per hour.

Our on-site laboratory and quality assurance facilities enables rigorous testing of production batches and contributes to new product development.

ALLERGENS

Australian Vinegar's state-of-the-art manufacturing processes enable us to create clean labelled products for you and your customers. We can provide products without allergen statements, (such as 150D, sulphites or others, subject to local legislation), all while delivering the vibrant colors, rich flavours, and inviting aromas you expect from traditional vinegar. This commitment ensures that our vinegars not only meet but exceed the growing desire for natural, allergen-free choices in today's market.
